

FAYETTEVILLE- MANLIUS LIBRARY MEDIA CENTER

September 2021

New and Noteworthy

-The LSC is currently in the library, it is located off the main floor of the library near the round tables! Students should report to the library and sign in normally.

- We have a new part-time librarian! Andrea will be here M-Th in the morning and Friday afternoon.

Website of the Month

"Bites Media manages to tackle controversial topics without telling teens what to think, empowering them to think critically, source information effectively, and consider different viewpoints."

Bites covers a variety of topics. Each article uses a minimum of 10 well respected sources. The articles are interesting and engaging, using many different types of media in one article. Bites can be used without logging in or creating an account!

BITES

COLLABORATIVE IDEA OF THE MONTH

In the library we don't just teach students how to find resources, we like to teach them how to find the best resources.

Schedule time in the library and we can help students work on developing criteria to evaluate digital resources. This lesson can be adapted for any subject!

IN THE LIBRARY

We are off to a busy September in the library. Freshman library orientation is in full swing.

We are collecting 'currently reading' slides from the staff. Students love to see what teachers are reading! Please make a copy of, and edit, [this slide](#) to let students know what you've been reading
